

# GRACE RIVER ACADEMY

## Immunization Record Checklist

Please use this list to ensure that your required immunization records are up to date at Grace River Academy.

*Grace River Academy exists to provide a classical, Christian education by restoring academic excellence based on God's truth. Students will know their God, know His Word, and know His purposes, transforming their lives spiritual, academically, physically, and emotionally; thus, preparing them to impact their world for Christ.*

Student's Full Name: \_\_\_\_\_ Date of Birth: \_\_\_\_/\_\_\_\_/\_\_\_\_

- Diphtheria, Tetanus, & Pertussis (DTaP, DTP, or Tdap)** - A minimum of 4 properly spaced doses. A child must have at least one dose of DTaP or DTP vaccine on or after the fourth birthday. DT (Diphtheria, Tetanus) vaccine is required for children who are medically exempt from the pertussis containing vaccine (DTaP or DTP). Adult Td is required for children 7 years of age and older who do not meet the minimum requirements for tetanus and diphtheria.
- Hepatitis B Vaccine** - A complete series of 3 properly spaced doses of hepatitis B vaccine is required for all children.
- Measles, Mumps, & Rubella (MMR) Vaccine** - A minimum of 2 measles, 2 mumps, and 1 rubella. (Most children receive 2 doses of each because the vaccine usually administered is the combination vaccine MMR). First dose must be administered at age 12 months or older. Second dose of vaccine must be administered prior to entering kindergarten but can be administered at any time after the minimum interval between dose 1 and dose 2.
- Haemophilus Influenzae Type b (Hib) Vaccine** - ***This vaccine is required ONLY for children up to 60 months of age.*** A primary series consists of either 2 or 3 doses (depending on the manufacturer). However, the child's current age and not the number of prior doses received govern the number of doses required. Unvaccinated children between the ages of 15 and 60 months are only required to have one dose of vaccine.
- Pneumococcal (PCV) Vaccine** - ***This vaccine is required ONLY for children less than 60 months of age.*** One to four doses, dependent on age at first dose, of pneumococcal conjugate vaccine are required.
- Polio (IPV) Vaccine** - A minimum of 4 doses of polio vaccine. One dose must be administered on or after the fourth birthday. See supplemental guidance document for additional information.
- Varicella (Chickenpox) Vaccine** - All children born on and after January 1, 1997, shall be required to have one dose of chickenpox vaccine administered at age 12 months or older. Effective March 3, 2010, a second dose must be administered prior to entering kindergarten but can be administered at any time after the minimum interval between dose 1 and dose 2.
- Hepatitis A (HAV) Vaccine** - Effective July 1, 2021, a minimum of 2 doses of Hepatitis A vaccine. The first dose should be administered at age 12 months or older.
